

Margo Murrin

 Pittsburgh, PA  (724) 996-4390  margomakesmonsters@gmail.com  /margomurrin  /margo-murrin

Illustrator with a background in commercial signage looking to break into the UX/UI field. Focused on creating user centric and aesthetically pleasing designs. Passionate about using creativity and communication to solve problems and make beautiful products.

Education

UI/UX Course Certificate - CareerFoundry

Remote — March 2021 - March 2022

Created Four Project Case Studies:

- **Artonomy** - Native iOS and Android app concept

Created an art sharing app with the goal of creating space and features for creatives to share and sell work without algorithms.

Tools: Adobe XD, InVision, Procreate App

- **Rainy Day** - Native money saving app concept

Designed a money savings app focusing on features that would increase ease of use for less experienced users to create saving goals.

Tools: Adobe XD, InVision, Procreate App

- **Kitchenworks** - Responsive web concept

Built a responsive web app for recipes with a focus on providing helpful information and tips to users of all cooking skill levels.

Tools: Adobe XD and InVision

- **Second Hands** - Mobile app concept

Designed screens for a vintage clothing selling app.

Tools: Adobe XD

Experience

Artist/Illustrator

MargoMakesMonsters/Self Employed

Allison Park, PA — March 2020 - Present

- Delivered 3-5 product designs created digitally for clients resulting in increased brand awareness
- Collaborated closely with clients to make their visions come to life in the form of drawings, paintings, and digital designs

Operator

Forms & Surfaces

Allison Park, PA — October 2017 - March 2020

- Managed production teams and mentored five employees tripling production output over several departments
- Provided management with revised construction plans that decreased production waste and construction time
- Developed operating procedures for several departments to increase learnability for new employees. This decreased training time and allowed multiple employees to cross-train and avoid production loss during absences
